SUMMARY

Full Stack Web Developer with a strong background in both front-end and back-end technologies. Demonstrated ability to design, develop, and deploy full-fledged web applications from scratch, ensuring seamless user experiences and robust performance. Passionate about continuous learning and staying up-to-date with the latest industry trends and technologies.

SKILLS

HTML, CSS, JavaScript, React JS, Node JS, Express JS, MongoDB, Redux, Material UI, Chakra UI, Bootstrap, Tailwind CSS, SQL, Java, Python, C, Figma, Git, Postman

EDUCATION

Jhulelal Institute of Technology   Nagpur, Maharashtra
BTech in Artificial Intelligence and Machine Learning   2021-2025

EXPERIENCE

Full Stack Development Intern – Cognifyz Technologies   Sep 2024 – Oct 2024
- Built full stack web applications using Express.js, Node.js, MongoDB, and EJS.
- Designed and implemented RESTful API endpoints for efficient client-server communication.
- Developed user authentication and secure data handling features.
- Integrated MongoDB for dynamic data storage and retrieval.

Web Development Intern - Arcane Path Tech Solutions   Nov 2023 – Dec 2023
- Developed and maintained web applications using HTML, CSS, and JavaScript.
- Created responsive and user-friendly web pages ensuring cross-browser compatibility.
- Implemented interactive features and animations to enhance user experience.
- Debugged and optimized code for performance and scalability.

PROJECTS

Ecommerce Website
- Developed a full-featured eCommerce website using the MERN stack, with Redux for efficient state management.
- Integrated PayPal for secure online payment processing, ensuring seamless and safe transactions for users.
- Built a dynamic and responsive UI with React, allowing for an engaging shopping experience across devices.
- Implemented RESTful API endpoints for handling data related to products, orders, and users.

MERN Email Authentication System
- Developed a secure authentication system using the MERN stack (MongoDB, Express JS, React JS, Node JS) with user account creation, email verification via a 6-digit code, and a "forgot password" feature.
- Integrated Mailtrap for email delivery during the verification process.
- Enhanced user experience with Framer Motion for smooth UI animations and Zustand for efficient state management.

Book Store App
- Developed a comprehensive book store website featuring full CRUD (Create, Read, Update, Delete) functionality for book management.
- Implemented user-friendly interface using React for dynamic user experiences. Built a robust back-end with Node.js and Express, integrating MongoDB for efficient data storage and retrieval.

ACTIVITIES

- **30Days DevChallenge -** JIT ACM Student Chapter
